

## 'LET'S PLAY' - ADMINISTRATORS

What does this look like for our sport leaders and administrators of youth sport?

1. Recognise that the 2020 season won't be 'normal' so let's not try to make it 'normal'. Approach the season with a flexible mindset
2. Lead with clear messaging that supports the focus of 'Let's Play' to your community
3. Can you simplify your offering to allow or encourage the opportunity for our youth to just play hockey?
4. Challenge the norm around team selection processes - have you held trials? Do you need trials or can you make teams with the numbers you have?
5. Be kind to yourself and remove the pressure - kids are simple and they just want to play

In times of adversity we must step back and focus in on what really matters. 'Let's Play' encourages us all to take a participants view and helps guide perspective around decisions for our youth.
