

KiwiSport Online Application Requirements

- Strategic Plan from lead agency in place.
[Example courtesy of Tennis Central](#)
- Show National and Regional Alignment now and for the future e.g. if a club applying then a letter of support from RSO, if a RSO then letter of support from NSO.
- Quality of programme delivery – willingness to have an independent evaluation completed on an annual basis. This would involve using someone external to observe delivery of a session and provide feedback to the deliverer/sport. We would then expect the coach/ sport to make positive changes to their sessions and delivery based on this feedback.
- KiwiSport expects all applications to have some elements of coach development within their project/ initiative. This should include:
 - Elements of support and mentoring.
 - Upskilling on the 'how' of coaching including being participant focused and understanding the needs of their participants according to their stage in the Athlete Pathway.
- Progress on the development and implementation of a volunteer plan.
- Evidence of a financial contribution by the lead agency or other funders, which increases over time as KiwiSport funds decrease or stop.
- Evidence of partnership between identified partners and deliverers.
